

# What Parents Say About Fine Art Starts!

"My sons learned SO MUCH from all of the classes they took at Fine Art Starts and you are one of the reasons they continue to love art so much. Max (19) had his first solo art show at Urban Outfitters, Bridgeport Village. He'll be at Minneapolis College of Art & Design and this summer he's working as a production assistant on TV commercials!" -Sue G.

"I want to thank you so sincerely for EVERYTHING that you gave our son this year. I had tears in my eyes when you addressed the crowd at the art show. I, my husband, and my mom are so inspired by your passion and how much you give to children. You truly facilitate and nurture their journeys toward a true appreciation of art and everything it embodies - not only aesthetically, but spiritually and emotionally as well. So....a *big* thanks." -Stephanie K.

"My daughter is really enjoying her art class. It is the highlight of her week. Yesterday I asked her what she wanted to do tomorrow since she wouldn't have school, and she told me that she wanted to get some paper and pencils, markers, etc and go somewhere to draw. It was so sweet." -Sharon G.

"Thank you for a wonderful year of art classes! My girls thoroughly enjoyed them!" -Erin T.

"Thank you for being so kind when you talked to my daughter. I'm sorry I didn't email you this gratitude earlier. She is dealing with a lot of emotion right now and your understanding was helpful. She has been happier in class and enjoyed spending time with her friends at the studio. With gratitude and respect for your heartfelt work with young artists." -Carol E.

"We just logged into the artsonia website and can't thank you enough!!!! Wow! What fun! What a way to celebrate our son and his work at the studio! Thank you! It's an amazing opportunity for him to share what he's creating not only with us in his immediate family, but also with others far away. Thank you for providing yet another venue for enhancing his self-esteem and self-expression." -Stephanie J.
